- 3 Choose quests from the library.** Open Quests > Quest library, choose Add, review the age range, schedule, coins, XP, timer, and Hero assignments, then add it to My quests.
- 4 Create a family quest.** Open Quests and choose +. Add its name, description, emoji, type, schedule, coin value, optional timer, age range, and Hero assignments.
- 5 Choose or create rewards.** Open Rewards > Reward library to add and customise an idea, or choose + for a household-only reward. Active rewards appear in the Hero Shop.
