

P

### PARTY LEADER

A trusted adult who enrolls Heroes, chooses quests and rewards, and approves results.

## PARTY LEADER QUICK START

- 1 Create the household.** Choose **Party Leader**, create an account, confirm your email, and sign in. Select **Create household** and name your family. If invited by another adult, choose **Join household** and enter their code.
- 2 Enroll each Hero.** From **Home**, choose **Enroll Hero**. Enter the child's name, unique username, birth date, and six-digit PIN. The birth date controls age-appropriate quests. Give the username and PIN privately to the Hero; no child email is needed.
- 3 Add quests from the library.** Open **Quests > Quest library**, choose **Add**, review the age range, schedule, stars, XP, timer, and Hero assignments, then select **Add to my quests**.
- 4 Create a family quest.** Open **Quests** and select **+**. Add a name, description, emoji, type, schedule, points, optional timer and age range, then choose the Heroes who should receive it. A quest can be saved before an eligible Hero exists.
- 5 Add rewards.** Open **Rewards > Reward library**, choose **Add**, adjust the description, emoji, and star cost, then save. To create a household-only reward, open **Rewards**, select **+**, enter the reward and price, and save.
- 6 Review activity.** Open **Review** for submitted quests and reward requests. Quest approval awards stars and XP. Timed quests unlock only after the countdown. Reward approval deducts stars at approval time and is blocked when the balance is too low.
- 7 Invite another Party Leader.** On **Home**, find **Party Leaders** (on mobile, open **Household access**). The owner enters the adult's email and selects **Create invite**. Share the one-time code privately. It expires after seven days and works only with that verified email. The adult signs in, chooses **Join household**, and enters the code.

H

### HERO

A child who completes quests, earns XP, badges and stars, and requests rewards.

## HERO QUICK START

- 1 Sign in.** Choose **Hero** and use the username and six-digit PIN supplied by your Party Leader. Heroes do not create a household or use an email address.
- 2 Complete today's quests.** Open **Today** and select a finished quest. For a timed quest, start the timer; it keeps counting when the timer window closes and can be approved only after it reaches zero. Submitted quests wait for Party Leader review.
- 3 Follow your progress.** Use **Week** for weekly activity. The header and **Hero** tab show your level, lifetime XP, star balance, and badges. XP builds levels and is never spent; stars are used for rewards.
- 4 Request a reward.** Open **Store** and choose **Buy**. The button is active only when you have enough stars. No stars are deducted until a Party Leader approves the request.
- 5 Ask for help.** A Party Leader can change your username, reset your PIN, and manage the age-appropriate quests and household rewards available to you.
